## **SOLAR HOLLER WELCOMES TWO NEW MEMBERS TO BOARD OF DIRECTORS:**

*Phoebe Patton Randolph of Edward Tucker Architects and Richie Heath of Bowles Rice LLP*

**Huntington, WV** - Solar Holler, West Virginia's largest and most trusted homegrown solar energy installer, is pleased to announce the recent appointment of two respected local professionals to its Board of Directors: Phoebe Patton Randolph, Principal at ET Architecture, and Richie Heath, Partner at Bowles Rice LLP.

Randolph brings with her a wealth of experience in architecture, sustainable design, and project management. As a principal at Edward Tucker Architects, she's worked on numerous high-profile projects that emphasize environmental stewardship and community-focused design. Her leadership in the field of architecture and her commitment to sustainability make her an obvious choice for the Solar Holler Board.

Randolph says she is "passionate about building wealth and sustainability in Appalachia, and couldn't be more excited about the possibilities that Solar Holler offers to shape the future of our region. I'm looking forward to working with the dedicated Board and the exceptional team at Solar Holler to further the mission of affordable clean energy and economic revitalization."

Richie Heath, a Partner at Bowles Rice LLP, has worked with Solar Holler on their legislative priorities for the past few years. Richie's deep understanding of the state's legal and regulatory landscape has already proven to be instrumental in advancing the company's priorities.

In a statement, Heath shared, "I have had the pleasure of working with and representing Solar Holler over the last several years and am looking forward to now having the opportunity to serve the company as a member of its Board of Directors. Solar Holler looks

to continue expanding on the great work it is doing in West Virginia, and I'm excited to contribute to that effort."

With the addition of Phoebe and Richie, Solar Holler is poised to continue bringing innovative solar solutions to homes and businesses across Appalachia, while empowering communities and creating jobs in the clean energy sector.
